

SPOKEN WORD IS EQUALLY AS IMPORTANT

POSTED BY PAT GRIFFIN

Ishwar Puri Ji: “We sometimes think the spoken word is no good..It is equally important.. [as] the ultimate [unspoken] Word..Shabd that comes from our True Home.. It's the only way we can understand and see something..If you're not aware of something, it doesn't exist.. The spoken Word or Varnatmak Shabd is also Sound.. As we evolve we have more words.. Without the spoken word we can move nowhere on the spiritual journey..” (Part 1)

“The Soul uses the mind to speak.. When ..we have built our Spiritual Will, to put that Spiritual Will into words, we still use the mind to speak.. All of us have Spiritual Will existing in us.. expressing Itself every day.. as intuition.. the language of the soul.. We call it a “gut feeling” ..If our Spiritual Will is strong..It makes more space for intuition to function..We can make that the primary voice..[instead of mental will]..

The real healers give a lot more time to express what is bothering you.. complaining about your problem.. Listening to someone is 90% of a remedy.. ” (Part 2) (Monthly Meeting Aug 12, 2016)
