

Within the Creative Power

The pattern of life as humans remains the same. First there is a mountain, then there is no mountain and then there is. It's the fractal pattern of the entire creation. We are that fractal pattern.

The entire pattern happens through His Love and Grace. First we see the mountain of our chaos (Maya) as we look outside. Then, through His Love, he shows us how to look inside and how to melt inside through Bhakti until the mountain of Chaos/Maya disappears. Melting deeper still, we see how we co-created the mountain. Then, as we look outside through the wisdom that we have gained inside, we observe the co-creation of the outside mountain as it continuously and simultaneously appears and disappears inside of us and outside of us.

A fractal is a never-ending pattern. Fractals are infinitely complex patterns that are self-similar across different scales/dimensions. They are created by repeating a simple process over and over in an ongoing feedback loop. Driven by recursion, fractals are images of dynamic systems – the pictures of Chaos.

The construction of a Menger sponge can be described as follows:

1. Begin with a cube (first image).
2. Divide every face of the cube into 9 squares, like a Rubik's Cube. This will sub-divide the cube into 27 smaller cubes.
3. Remove the smaller cube in the middle of each face, and remove the smaller cube in the very center of the larger cube, leaving 20 smaller cubes (second image). This is a level-1 Menger sponge (resembling a Void Cube).
4. Repeat steps 2 and 3 for each of the remaining smaller cubes, and continue to iterate ad infinitum

The Creative Power of the Divine Reality can also be called Divine Love, Unconditional Love, The Totality of Consciousness, or the Word, or the Mauj, or Divine Will, or Bhakti. These are different terms for the same experience. It's like a fractal pattern that exists as a state of the undifferentiated Word that continually differentiates within and without itself in the Causal Plane to create the entire Cosmos. As a part of this eternal fractal pattern the Cosmos evolves through us, for us and by us.

This is an oversimplification of the eternal process, but, this Divine Reality first creates the Original set of Fractal Patterns – which becomes the Causal Plane. Then it creates the Perfect Living Masters outside of itself and inside of itself as a mirror image of the Creator. And then it creates the Marked Souls who are a mirror image of the Perfect Living and the Supreme Lord at the same time. We are a microcosm inside the macrocosm of our Perfect Living Master. And we are also a microcosm of the macrocosm of our PLM that is outside of ourselves.

Another way of stating this is that inside and outside we are just a microcosm of our PLM – who himself is just a microcosm of the Supreme Lord. We exist within the Divine Ocean of Love inside of our PLM who exists within the Divine Ocean of Love inside the Supreme Lord. We are conscious within the consciousness of our PLM who is fully conscious within the totality of consciousness of the Supreme Lord. We are the creative power within our PLM who is the creative power within the Supreme Lord.

We are created in and through His Image in and through His image in our PLM.

Right now we are not fully aware of who or what we are – or how it all happens.

All we really have to do, however, is to fall in love with the Divine Love of the PLM that is both inside of us and outside of us at the same time. As we fall in Love with that Divine Love we slowly and inevitably melt into His Divine Love and eventually into the Divine Love of the Supreme Lord.

This is the Divine Pattern which continues eternally.
